TechDay Founders Summit programs are transformative one-day, application-only conferences where founders at the earliest stages of their startup journeys can learn from, network with, and connect to the people and resources that will accelerate their growth. All three of the Founders Summits in 2024 will be held at the brand-new Civic Hall in lower Manhattan.

The TechDay Expo is a one-of-a-kind event where the most innovative startups in the tech ecosystem exhibit their products, services and platforms to thousands of investors, tech talent, early adopters, corporates and press. The Expo gives startup founders, co-founders and their teams access to a highly curated audience of people and resources they need to launch, scale, and grow their businesses.

"For more than a decade, TechDay has helped founders discover the resources they need to thrive," Walter Charnizon, President of TechDay said. "No resource is more valuable than the network that emerges from time spent with successful founders, significant investors, and subject matter experts."
